

**EXPERIENCE****Learning Path** ~ July 2022 - August 2022 • *Collaborative Project*

- ➔ *Result:* Led development of a fullstack project.
- ➔ *Work:* Collaborated and led development of a fullstack platform for creating learning curriculum. Besides technical development aspects, planning and documenting was prioritized; including wireframes (Whimsical), database schema diagrams, mockups (Figma), project management planning (Github Projects).
- ➔ *Stack:* React.js, Node.js, Express.js, MySQL, Redux Toolkit, SASS, Github Projects, Figma

**Underdog Devs** ~ April 2022-current • *Contributor*

- ➔ *Result:* Integrated administrator panel with content moderation features.
- ➔ *Work:* Postgres database with Prisma ORM integration. Authentication system (Next-Auth) implementation. Coded the backend functionality and frontend of the blog section based on design specifications.
- ➔ *Stack:* Next.js, TypeScript, Postgres (Heroku), Prisma ORM, SASS, Context API, Figma, Trello

**TruckDriver.help + Quiz** ~ 2021-2022 • *Personal Project*

- ➔ *Result:* Currently maintaining an actively used platform. Created a platform for immigrants from CIS countries working in the freight transportation logistics industry. Top ranking pages on certain google search queries.
- ➔ *Work:* Fullstack platform built with Next.js. Planning and managing the project using agile methodology (Trello). Integrated external services; tracking (Google Analytics), sending email (SendGrid), collecting logs(LogTail).
- ➔ *Stack:* Next.js, Postgres (AWS-RDS), Prisma ORM, Context API, Trello, Vercel

**Cryptocurrency Charts** ~ 2020 • *Personal Project*

- ➔ *Result:* Lightweight live cryptocurrency price charts.
- ➔ *Work:* React application with Context API for state management. Data is fetched from CoinGecko API and visualized using a library called Recharts.
- ➔ *Stack:* React.js, Context API, Recharts, Netlify

**Russo Brothers Transport** ~ 2019 • *Contractual Job*

- ➔ *Result:* Helped build an online presence for a freight transportation logistics company.
- ➔ *Work:* Defined brand design guidelines. Designed mockups based on brand guidelines and developed a static website.
- ➔ *Stack:* HTML, CSS, JavaScript, GSAP, Bootstrap 4, cPanel, Photoshop

**EDUCATION**

**Underdog Devs** ~ June 2022 - August 2022 • Stipend Program

**REFERENCES**

Available upon request.

**OTHER EXPERIENCE & SKILLS**

- Several years of self-taught graphic design experience. Familiarity with design fundamentals and experience working with graphic design software including Photoshop, Illustrator and After Effects.
- Trilingual: Uzbek (Native), Russian (Second), English
- Experience working as freight coordinator in the logistics industry.
